## 2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

The mission of KIPP Sol Academy is to provide an excellent education that ignites hearts as much as minds. By teaching academic skills, fostering intellectual habits and cultivating character strengths, we light the spark within each child necessary to explore, advance and succeed on the path to and through college. Our students will transform their lives and the lives of many others as advocates who confidently think, speak and act for themselves, their communities and for positive change throughout the world.

### About Our School:

At KIPP Sol Academy, we call our students Advocates. Our definition of advocacy - "the ability to define ourselves, name ourselves, create think and speak for ourselves so we never risk being defined, named, created, or spoken for by others"- is the motivational belief we hold about what education can do to empower young people and it reminds us why we do our work here with such excellence, commitment, and love.

At KIPP Sol we believe. We believe each child is unique and should be celebrated and nurtured as so. We believe that education is the path to equity and freedom. We believe excellent skills in reading, writing, speaking, and math give us a powerful voice and make us independent. The power is within each of us. We believe that intelligence is malleable. Effective effort is what makes us successful. We believe we must work to earn trust and build relationships with students, families and teammates in order to best serve the community. Our students are who we are. We believe we must teach our students with love and empathy while always holding them to the highest expectations. Anything less would be a disservice to our students and the community.

We live our beliefs daily through our comprehensive (Blended Learning) curriculum to ensure students with a spectrum of needs, interests, and abilities are stimulated and learning at rigorous, yet appropriate, levels. At Sol, "blended learning" means more than just integrating at computer for every student. It means that we expertly mix learning environments, technologies, teaching methods, and structure cross-curricular student learning opportunities to ensure that students are challenged as individual learners. In order to honor our students' growth and development over time as learners and as people, we have divided our instructional model into the Lower School (5th-6th grades) and Upper School (7th-8th grades). Our curricular model in the upper and lower school is based on our 6 Pillars of Excellent Education: Rigorous instruction, Individual Exploration, Whole-child Learning, Risk Taking, Team Building, and Data Driven.

## 2022-23 School Overview

"Somos Sol" is the phrase we use to represent the feeling we have as members of a KIPP Sol community - as staff members, students, and parents. As a charter school, we simply would not exist without the trust and support of our amazing families. Our Sol families help us to build a school community that creates beautiful memories and a strong connection to school for our Advocates.

When you visit Sol, you walk the brightly colored halls and you hear, see and feel Advocates actively engaged in their learning. You will see our students huddled together as they couple factual knowledge with innovation to tackle a dilemma in science; you will walk outside and see a group of 5th graders designing and authoring a personal blog to record reflections on their personal reading books; you will hear the laughter of students cheering on teammates as they run relays in P.E.; you will hear music playing as students enthusiastically work to sand their paper sculptures in art; you will walk into an English class and see a teacher pulling a small group to review something confused from yesterday's lesson while another group of students collaborate to edit constructed responses and still other students curl up with a book or continue writing a literary response; in math, Advocates apply their own algorithms to solve real-world problems while deepening their conceptual understanding and mathematical reasoning. If the academic day leaves you wanting more, you can stay for our extending enrichment blocks that include intervention, tutoring, computer coding, and a host of exciting topics such as film critique, arts and mariachi, dance, photography, basketball, soccer and more!

We look forward to serving the students and families of East LA with excellence, love, reflection and ganas for many years to come. We are proud of Sol's quality staff and beautiful students and families. Come visit us! ¡Somos Sol!

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

## School Facility Conditions and Planned Improvements

In the fall of 2015, KIPP Sol Academy moved into its permanent facility at 4800 E Cesar E Chavez Avenue. This state-of-the-art new facility is a wonderful place for Sol to continue to grow its roots and its impact in the community. The KIPP Sol Academy campus is also inspected monthly for safety and cleanliness.

Our facilities have undergone improvements that focus on the health and safety of students and staff. These improvements were a result of COVID-19 and will ensure everyone is healthy and safe while at school. Improvements include:

- Upgrade to MERV13 air filters
- Plexiglass installation in the office, restrooms and classrooms
- Installation of touchless water bottle fillers
- Installation of touchless hand sanitizer dispensers

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**  
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	N/A	48	N/A	41	N/A	47
<b>Mathematics</b> (grades 3-8 and 11)	N/A	24	N/A	27	N/A	33

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

#### 2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade 7	98%	98%	98%	99%	100%

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2022-23 Opportunities for Parental Involvement

Due to COVID-19, we have to adhere to strict visitor policies which have impacted our school's vision to implement our parent involvement vision for our families. KIPP Sol Academy highly values parental involvement and engagement in school activities. There are many ways that parents can stay involved and engaged - taking on a role with our Sol Parent Advocacy Committee (SPA); participating in parent development meetings pertaining to high school matriculation, college readiness, or understanding the development of middle school-aged children; organizing school events; spearheading school-based fundraising; checking homework, academic and behavior progress either online or in person; and cultivating relationships and connections within our community by recruiting new families. We call this "Somos Sol." Parent engagement opportunities are announced through our weekly family newsletter, through phone calls, emails, communication with Sol Parent Advocacy committee and various other notices sent home to families.

Parent involvement continues to be a priority. KIPP Sol has kept families engaged and up to date on school related matters by hosting a monthly virtual Coffee with Admin, Parent Advisory Committee, and English Language Proficiency Assessments for California. To maintain high parent involvement, families have also had the opportunity to join virtual events such as Literacy Night, Math Night, and our annual Enrichment Showcase. Additionally, we also changed communication platforms to ensure parents remained informed and involved. Parent Square is our new communication platform and it has ensured families know what is happening at KIPP Sol. There they can see the school calendar, upcoming events, days off, and can even communicate with teachers and administration.

For more information related to these and other parental involvement opportunities, please contact our Family Engagement Lead, Karla Davalos, at [kdavalos@kippsocal.org](mailto:kdavalos@kippsocal.org).

#### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	0.00	0.44	2.45
Expulsions	0.00	0.02	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

## 2022-23 School Safety Plan

KIPP Sol Academy has a comprehensive school safety plan that is reviewed, updated and discussed with faculty at the beginning of the school year. This year's plan was reviewed and updated in October 2022. The safety plan addresses the school's responsibilities in emergencies associated with natural disasters, human-caused emergencies and technological incidents. The plan provides a framework for coordination of response and recovery efforts within the school and local, state, and federal agencies. The plan is intended to establish organization to direct and control operations at the site during a period of emergency by assigning responsibilities to specific personnel. KIPP Sol Academy runs emergency drills on a monthly basis, which includes earthquake, fire, lockdown and shelter in place drills.

## 2019-20 Secondary Average Class Size and Class Size Distribution

This table displays the 2019-20 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Subject	Average Class Size	Number of Classes with 1-22 Students	Number of Classes with 23-32 Students	Number of Classes with 33+ Students
English Language Arts	31		7	1
Mathematics	25	2	8	
Science	31		7	1
Social Science	25	2	7	1

## 2020-21 Secondary Average Class Size and Class Size Distribution

This table displays the 2020-21 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

## 2021-22 Types of Services Funded

KIPP Sol Academy offers an ASES funded afterschool program to assist and support our students. The goal of our program is to continue the support students are receiving during the regular school day in a safe constructive environment during after school hours. Our program provides literacy and enrichment activities for our students, grades 5th through 8th. Every student in our program participates in a daily literacy and enrichment component. Our literacy programs provide tutoring and homework help in the core areas of reading, language arts, mathematics and science. Student's use software to make sure they are reading and completing math at their individual levels. Students participate in at least 1 hour daily in a literacy element. Our educational enrichment programs align with the school's academic program and include, but are not limited to, recreation and prevention activities such as football and dance, youth development strategies like performing arts, and music. Other enrichment activities are implemented based on student interest and needs.

## Professional Development

We define professional development as opportunities to grow as professionals during one-on-one meetings with a coach, as a team in content-team meetings, and during professional development cohorts that are differentiated according to teacher needs. In each of these capacities, data is used to inform the reflection and next steps. KIPP Sol's Professional Development occurs on a weekly basis on Monday afternoons from 1:15–4:00pm and on assigned full day regional Professional Development days throughout the school year.

During one-on-one meetings, instructional coaches prepare for meetings by observing teachers and pulling their data to identify the area of focus. All observations are completed using the regional tools of teacher practice observation and a comprehensive teacher rubric. While meeting with teachers, coaches determine whether to focus on data, observation feedback, or both. In data-focused One-on-ones, teachers and coaches look at student work to identify trends, misconceptions, and observation data. They identify specific students and name their needs in order to create action steps. They also make plans to address misconceptions, schedule a time in which a lesson will be retaught, and track the data from those reteaches. In observation One-on-ones, teachers and coaches discuss findings from observations based in the observation tools. Evidence is then captured using either video or running record to ground decision making in facts.

KIPP Sol then uses its learnings from data- and observation-focused One-on-ones to inform school-wide professional development. The school-wide professional development is differentiated in response to data collected from student achievement and teacher observation data. We currently have three strands of professional development for teachers: Data (Assess, Analyze, and Act), Lesson Planning, and Leadership. The lesson planning cohort sessions have been scoped out based on excellence indicators aligned to the comprehensive teacher rubric. Each session builds on the knowledge necessary to complete lessons with clear objectives and key points, based on students' current levels of understanding. In the data strand, teachers can learn the skills required to accurately assess student data in order to make decisions. Finally, the leadership cohort is designed for teacher leaders who are leading content or leadership teams. These sessions aim to help leaders create a vision, build team culture, and practice accountability, each grounded in teacher-perspective data and student-achievement data.

Teachers also work in content teams to make sure that the curriculum delivery and instruction is done at the highest possible level. We believe that content teams perform four core functions:

Looking at Student Work (LASW ) - Content teams evaluate and respond to demonstrated learning in teachers' classrooms.

Lesson Study - Teachers use their content teams to give and receive feedback on their lesson planning.

Data Dives - Content teams are also a place for teachers to review and respond to student assessment data in their classrooms.

Critical Friends - Content teams provide "Critical Friends" to teachers. "Critical Friends" are one more way for teachers to observe colleagues and receive feedback on their instructional practices.

In short, KIPP Sol's professional development plan aims to improve student achievement outcomes by providing teachers with ongoing data- and observation-based feedback from coaches, colleagues, and school leadership.
